

Campus Surgery

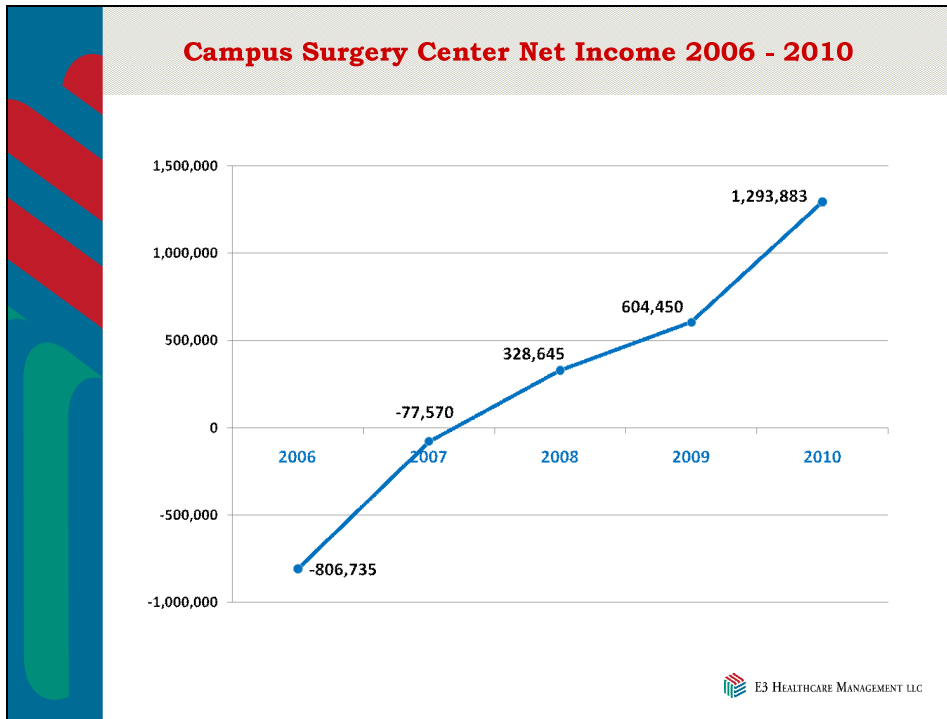

When E3 Healthcare acquired the Campus Surgery Center in October, 2006, (formally Physician's Surgery Center), we knew that we could make Campus a thriving, successful ambulatory surgery center in Daly City. E3 has grown the business exponentially with new physician recruitment, case volume growth and corresponding increase in net income.

Physician Participation: Campus currently has approximately 150 active and courtesy Medical Staff. When E3 began managing Campus, the physician roster was comprised of less than 50 physicians, many of whom were not using the Center. We have actively recruited some of the most experienced surgeons from the local community and San Francisco and persuaded many of the original 50 to return to Campus. Our physicians tell us their patients love the clinical staff and convenience of ample and free parking.

Volume: The graph demonstrates the Campus surgical volume growth from October 2006 through December 2010:

Net Income: Increased volume, strong payer partnerships and expense management has moved Campus Surgery Center in to profitability! Campus will soon become fully contracted with all insurance companies to provide the most economical choice for physicians and their patients.

Campus welcomes the challenges of 2011 as the economy continues to struggle and the complexities of health care reform take shape. Our mission remains to continue to recruit more physicians to our Staff while we deliver the most cost effective surgical option to the local communities we serve.

For physicians to inquire about an application to Campus, please contact Cathy Cardoza at 650-302-6744.
